# HISTORY

**J-Frozz Engineering Services** ,Established in **2020** concentrating in airconditioning only with cleaning and repair services, the company eventually grown to provide design, supply and installation of airconditioning units to its market, with accreditation from various brands. This includes contracts from known bpo's and logistics company in the country to maintain their airconditioning system from data centers and cold room facilities

After a year and with the ongoing pandemic and new affiliations, J-frozz engineering services manage to include areas in cctv, solar system, fire protection system and fire detection alarm system which include design, supply, installation and after sales services, eventually including sign and seal by professionals to its package. Covering some government contract from school buildings and research facilities.

Due to growing demands j-frozz engineering services manage to bring in its sister company j-frozz electro mechanical trading for it supply only market for electrical and mechanical tools and equipment.
