# Introduction

J-FROZZ ENGINEERING SERVICES

**J-Frozz Engineering Services** is a solutions-driven engineering firm specializing in electro-mechanical and civil engineering services. We offer comprehensive design, installation, and maintenance solutions tailored to meet the demands of modern infrastructure projects.

With a strong foundation in both mechanical and electrical systems integration, as well as structural and civil works, our team delivers end-to-end support for projects of various scales—whether commercial, industrial, or institutional.
Driven by a commitment to technical excellence, safety, and customer satisfaction, we combine innovative engineering practices with hands-on expertise to ensure timely, cost-effective, and reliable project delivery.

Our services include:

- Mechanical and Electrical systems design and installation
- Civil works and structural construction
- Preventive maintenance and system upgrades
- Project management and consulting

We proudly serve clients across diverse industries such as real estate, telecommunications, government, logistics, BPOs, and manufacturing, helping build resilient and efficient infrastructure for the future.

# Introduction

J-FROZZ ENGINEERING SERVICES

**J-Frozz Electro-Mechanical Trading** is a dynamic trading company established as a sister firm of **J-Frozz Engineering Services**, with the initial goal of supplying high-quality materials and equipment for electro-mechanical engineering projects.

Built on the technical foundation and industry expertise of its parent company, **J-Frozz Electro-Mechanical Trading** was created to support seamless sourcing and procurement for design and installation works. Now offering a wide range of electro-mechanical products directly to contractors, developers, and end-users.

Our product portfolio includes:

- Electrical components and control systems
- HVAC and mechanical systems and accessories
- Plumbing and fire protection materials
- Tools and consumables for engineering works

With a strong commitment to reliability, efficiency, and competitive pricing, **J-Frozz Electro-Mechanical Trading** serves clients across industries such as construction, manufacturing, telecommunications, and real estate. Whether supplying for ongoing projects or independent procurement needs, we ensure fast, dependable delivery and technical support when needed.

# Mission

Our Mission is to provide innovative, reliable, and cost-effective **electro-mechanical and civil engineering solutions**, alongside high-quality products and materials, to support the success of infrastructure and industrial projects. We are committed to **delivering excellence in service and supply, driven by expertise, integrity, and customer satisfaction**.

# Vision

Our Vision is to be a **trusted and leading partner** in the engineering and construction industry — known for seamlessly integrating **technical services and product distribution** that power progress, build sustainable communities, and shape the future of modern infrastructure at an affordable cost.

# About Us

We are a dynamic engineering and trading firm specializing in **electro-mechanical and civil engineering solution**s, offering a fully integrated approach to infrastructure, construction, and industrial projects. Our organization is built on two strong pillars: **J-Frozz Engineering Services**, which delivers expert design and installation solutions, and **J-Frozz Electro-Mechanical Trading**, which provides high-quality materials and equipment to support a wide range of engineering requirements.

With a team of skilled professionals experienced in **civil, mechanical, and electrical disciplines**, we pride ourselves on our ability to offer innovative, efficient, and cost-effective solutions tailored to meet the specific needs of each client. Our technical team leverages the latest tools and technologies to ensure successful project execution — from planning to completion.

Our **trading arm** was established to support internal engineering projects by sourcing essential electro-mechanical components. Now catering to a wider market with a diverse portfolio of **products for power distribution, mechanical, electrical, HVAC, and industrial automation systems**. This seamless integration between service and supply allows us to offer a unique value proposition to our clients.

Driven by a shared commitment to **quality, innovation, and customer satisfaction**, our two entities work hand in hand to deliver reliable engineering services and dependable product sourcing — helping businesses across industries build smarter and operate better.

# History

## J-FROZZ ENGINEERING SERVICES AND ELECTRO-MECHANICAL TRADING

**J-Frozz Engineering Services** was established in 2020, initially focusing on air conditioning cleaning and repair services. With a strong commitment to quality and customer satisfaction, the company quickly evolved to offer design, supply, and installation of air conditioning systems, earning accreditation from multiple trusted brands. This growth enabled us to secure contracts with notable BPO and logistics companies in the Philippines, maintaining critical systems for data centers and cold storage facilities.

In response to rising market demand and the challenges brought by the global pandemic, we expanded our capabilities in 2021 to include additional services such as CCTV systems, solar power solutions, fire protection systems, and fire detection and alarm systems. These offerings now include complete design, supply, installation, and after-sales support, with professional sign-and-seal services integrated into our packages. This allowed us to successfully undertake projects for government institutions, including school buildings and research facilities.

To meet the growing demand for quality equipment and materials, we established our sister company, **J-Frozz Electro-Mechanical Trading,** supporting our internal projects. Today, it also operates independently, providing electrical, mechanical, and HVAC products to a wider market through supply-only distribution, serving contractors, businesses, and direct clients across various industries.
Together, our companies continue to grow, driven by a shared vision to deliver reliable engineering services and trusted product solutions for modern infrastructure.

# Areas of Expertise

- HVAC Systems

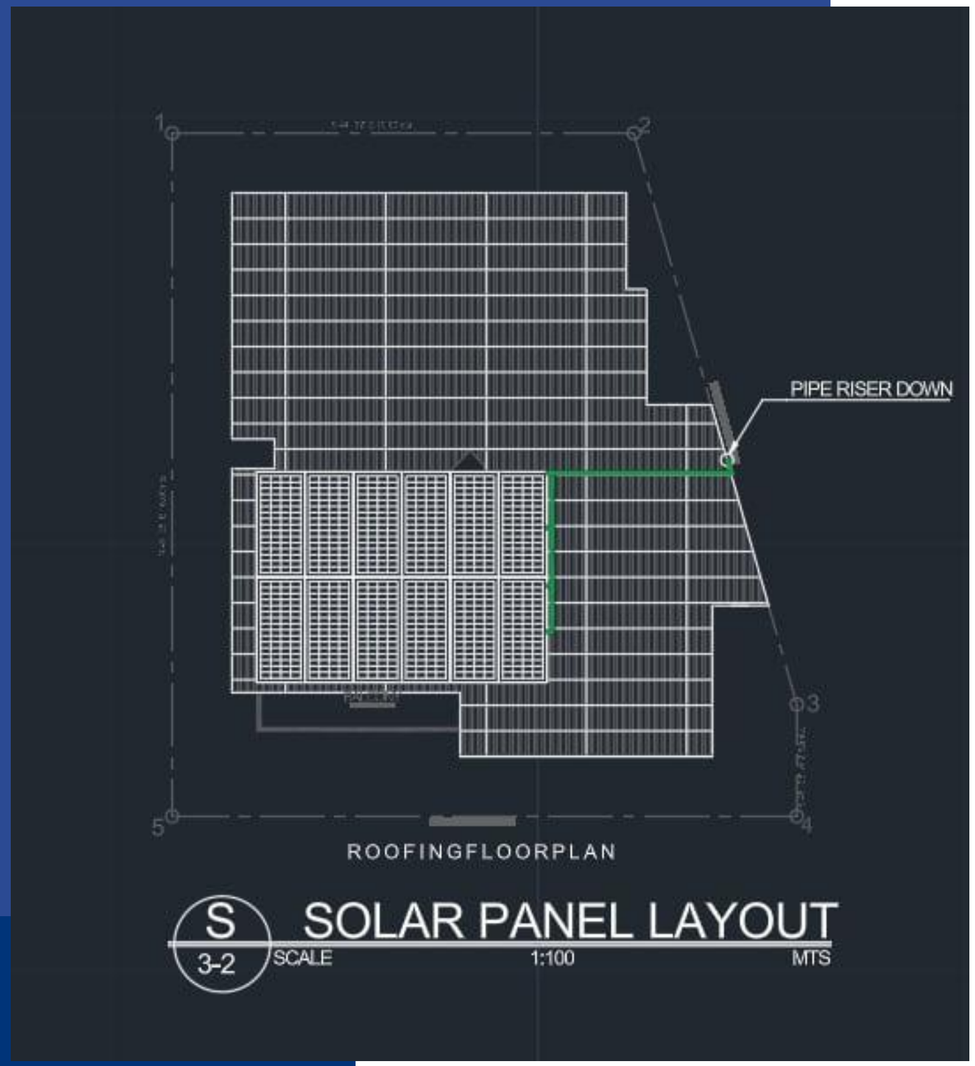

Expertise in the design, supply, installation, and maintenance of residential, commercial, and industrial air conditioning systems, including precision air conditioning units (PACU).

- Air Conditioning Services

Comprehensive repair, cleaning, and preventive maintenance services for various types of air conditioning units to ensure optimal performance and efficiency.

- Fire Protection and Safety Systems

Design, installation, and commissioning of fire protection systems and fire detection and alarm systems (FDAS), fully compliant with local codes and safety standards.

# Areas of Expertise

- Security and Surveillance

Supply and installation of CCTV and surveillance systems for residential, commercial, and institutional use, ensuring effective monitoring and security coverage.

- Solar Energy Solutions

Installation of solar-powered systems for residential, commercial, and agricultural/irrigation applications, promoting energy efficiency and sustainability.

- Plumbing and Piping Systems

Complete design and installation of plumbing works, including sign and seal by licensed professionals, tailored for building compliance and project integrity.

# Services

## Design, Supply, and Installation of HVAC Systems

Customized air conditioning solutions for residential, commercial, and industrial applications, including split-type, VRF, and PACU systems.

## Air Conditioning Repair, Cleaning and Preventive Maintenance

Regular maintenance and troubleshooting services to extend equipment lifespan and ensure reliable system performance.

# Services

## Design, Supply, and Installation of Fire Protection and FDAS

Complete setup of fire suppression systems and fire detection and alarm systems, including piping, sensors, alarms, and compliance documentation.

## Design, Supply, and Installation of CCTV System

Provision and deployment of surveillance systems with professional installation, cabling, and system configuration.

# Services

## Solar Power System Installation

End-to-end setup of solar energy systems for homes, business, and agricultural use - including solar panels, inverters, and battery integration.

## Plumbing Works with Design, Installation, and Sign & Seal

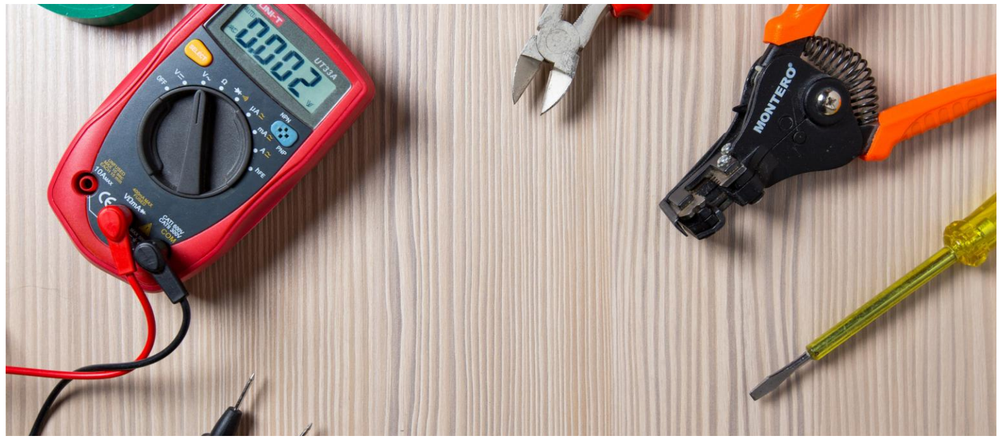

Full-service plumbing projects, from system design to on-site installation, with sign and seal by licensed engineers.

# Services

## Design and Sign & Seal of Mechanical Plans

Preparation and certification of mechanical plans required for regulatory approval, project compliance, and construction execution.

## Material Supply for Electro-Mechanical Projects

Through our trading arm, we provide high-quality tools, equipment, and components for mechanical, electrical, and HVAC applications.
